Subject: Neighbourhood plan

I am writing in support of the Atmos project being included in the Neighbourhood Plan (C-12 former Dairy Crest site). This is such an inspiring project, so well researched and with massive public support. If that project is realised it will be a huge asset to the town and a phenomenal example of what is possible to the country as a whole. I would be deeply proud to live here with such a pioneering project at the heart of the community.

Yours
