Subject: Former Dairy Crest site

Dear Sir, Madam,

I would like to express my strong support in developing the former Dairy Crest site as suggested by the ATMOS project. Totnes is a special town and to develop a derelict site like this with community support as has happened so far, would create a unique opportunity and also the diverse use of space Totnes needs so desperately. Also when successful it could lead to many more precedents in other communities and therefore needs all the support it could possibly receive. I do wish that we as a community could achieve this and that the money as the main driving force for development which is definitely pushing us in the wrong direction, can be left behind. The future deserves something much better and ATMOS could lead us there. I hope a wise decision is going to be made in favor of our community.

Kind regards,

Christel Goodwin
