	Wembury	West Alvington	West Charleton	Wotter	Berry Pomeroy	Wrangaton	Woolston Green	Village names marked in green are within the South Devon AONB. As this assessment tool does not provide detailed landscape sensitivity evidence alongside an audit of services, facilities and connectivity, AONB villages are not included in the list of sustainable settlements. This recognises that for villages within the AONB to be described as sustainable, the lansscape impact of development must be fully assessed and understood. The required landscape capacity and sensitivity work can be done by neighbourhood plans through the site allocation process, or by an applicant submitting a planning application.
