Subject: Atmos

Good afternoon

I was part of the planning and design community when we gathered countless ideas in post it notes and collated these together into what became the most inspiring concept for the Town. It was a process of the utmost integrity and led by what we, the inhabitants believed in and wanted.

It will be an absolute travesty if this is sabotaged and ripped away from us by a corporate model that professes that "what is being planned will be a pleasant surprise " (I quote from one of the meetings about the Saputo bid)
Transparency was one of the things that was trustworthy about the Atmos process.

The visions, dreams and ideas came from one of the most richly rewarding and comprehensive creative process it has ever been my pleasure to witness and to be involved with.

It is wonderful to think that with the possibility of the draft policy enshrining Atmos in the Totnes neighbourhood plan, we might see a pull back from losing all that potential.

I sincerely hope with all my heart that this can go forward....I feel that the wellbeing and happiness of my later years will be greatly impacted by the outcome.

Sincerely

JQ
Resident for over 30 years
