To: Totnes Town Clerk
Subject: Neighbourhood Plan - Dairy Crest Site

We received your invitation dated 15th October to participate in the Consultation on a New Policy: C12.

We are deeply concerned that time has been wasted, opportunities lost and consequently that the Town has suffered.

It is right that we made a return at the time when the Neighbourhood Plan was launched. It is also right that we have closely followed efforts to turn the Dairy Crest site into an asset for Totnes.

By switching now to a consideration of the Dairy Crest site, you appear to be prioritising this space in the Town. What surprises us is that there is no mention/acknowledgement in your document of ATMOS. Moreover, the research behind the work of ATMOS and the proposals put forward appear to have been subsumed into your document.

As a citizen of the Town, we want positive action and improvements. We supported the NP, we voted FOR in the ATMOS referendum, which was carried handsomely.

To describe our reaction as impatience would be to understate our feelings.

On behalf of both of us,

Glenyce and Derek Meacher
