Subject: C12 Former Dairy Crest site policy

Dear Councillors

I am writing to offer my strong and full support for the provisions in the proposed new Totnes Neighbourhood Plan Policy, C12, relating to the former Dairy Crest site. It is clear to me that Totnes does not need yet another site developed just for expensive housing that attracts incomers and second home owners and does nothing to solve the housing and employment needs of local people. The plans of the ATMOS project offered a much more regenerative and community-led model for development, and in my view whoever develops the site - whether TCDS or another developer - needs to work in line with these plans which were voted for by the community.

Yours sincerely
Jenny Wilks
