Subject: Support for Atmos in neighbourhood plan

Dear Administrator,

I live in Bridgetown, and am writing in support of the Atmos project in the neighbourhood plan. How extraordinary that our little town has oh so nearly been a cause celebre far and wide, for hosting this leading edge, green, community project – even more so at a time when there is a dire need for positive 'building back better', communities are in disarray, and the housing crisis is near top of agenda. To think that £2million, if I remember rightly, of lottery funding for this inspirational project was achieved and is in danger of being lost, is more than heartbreaking.

Yours sincerely,  
Hilary Prentice
