Subject: Atmos project

To whome it may concern,

I am writing to support the Atmos project going ahead as originally planned. I have been a supporter of this project right from its inception and feel it will contribute to our town being inclusive, caring of the environment, forward thinking and certainly drawing more tourists and people who wish to learn from our communities innovative approach to using old disused buildings like this one for the greater good of all. At times like this when our planet needs us to think of long term sustainable ways of living this project was set to be such a promising example of community thinking. Working with each other creatively to produce a project that future generations will thank us for and other towns will be able to learn from our example. I trust you will do everything in your power to make sure that the right thing is done to secure the atmos projects future success.

Yours sincerely

Nina Walters
