Subject: ATMOS inclusion in Neighbourhood plan
To:

Dear Sir/Madam,

I would like to forward my support for the ATMOS project for the re-development of the former Dairycrest site in Totnes and its inclusion in the upcoming Neighbourhood Plan. Rather than just some generic, poorly designed and constructed development that no-one here can afford to live in, ATMOS has designed something with the needs of the community at its heart. Given the terrible housing situation for the people of this town (yes, i was one of them and have now been forced to live further away) I personally don't see how you can afford to ignore a plan to build genuinely affordable homes on a brownfield site.

Yours Sincerely,

David Wright
