Subject: Future of the ATMOS Project

Hello,

Our family recently moved to Totnes and were sad to hear that the Atmos Project has been held up with an uncertain future.

Please make sure it is included in any future plan for the development/progress of Totnes. We are really excited at the thought of preserving the heritage of the site and being able to use aspects for both business and relaxation.

The provision and maintenance of flood defences is also an attraction, having just reviewed some water level predictions for as close as 2050! The whole project really fits with what we feel is a very Totnesian ethos and it would be a great pity if it wasn't carried through to completion.

Many thanks,  
Heather.
