Subject: Neighbourhood Plan

Dear Councillors

I would like to register my wholehearted support for policy C12 and including Appendix E C12 regarding the Atmos site.

The tragic chicanery by the succession owners of the Dairy Crest brand has resulted in uncertainty about the future of the site, which we must remember has an existing Planning Approval for a mixed development of a sustainable kind which has been widely supported by our Community.

In my view, there should be no deviation from the specifics of that Approval without the explicit support of this Town Council and all the more so at this time when we should be mindful of advocating for the most sustainable development in any future building plans. In recent years Totnes has endured more than its fair share of shoddy development.

Regards

Vivienne Clark (25, TQ9 5AR)
