Subject: draft policy C12 – Former Dairy Crest Site

Dear Sir or Madam,

I am writing in strong support of the above policy. I grew up in Dartington and have recently moved back to the area because I love the pioneering, forward-thinking and environmentally responsible way that Totnes is addressing social issues. Please can you show strong leadership here and adopt a policy that means this site delivers what was promised to totnes residents so long ago?

I was so excited to see this project when I moved back 6 years ago, and have been so saddened by the way the project has recently been torn away from the hands of Totnes residents who voted for it. Please put it back where it belongs.

Many thanks,

Becca
