Subject: RE: Totnes Neighbourhood Plan - Consultation on a New Policy: C12 -
Former Dairy
Crest Site

Good afternoon,

Thank you for sending through the consultation for New Policy C12, which has been forwarded onto this department.

We were pleased to see that Section 2 on improvements and qualities includes the restoration and reuse of the listed Brunel building. However, we are concerned that there is no reference to the protection of the leat to the Town Mills which runs through the site and which dates from at least the 1580s.

Please do come back to me if you require any further information.

Yours sincerely,
Sue Watts
(Historic Environment Officer)
