Subject: Dairy Crest site

Dear Totnes Town Council

I am in favour of the amendment to include the former Dairy Crest site in the Neighbourhood plan. This makes a lot of sense because this may well tip the balance in allowing the TDC plans to come to fruition. This is important not only because the plans include options for affordable housing, retaining the character of the historic site, a development that is in line with the climate emergency we face but it also represents the will of the local community.
